

Infection Prevention Working Group

Terms of Reference

What is the Infection Prevention Working Group?

The Infection Prevention Working Group consists of member companies of EDANA, which are active in the area of Medical Devices, in particular medical gowns and drapes as well as face masks.

Objectives

- Be recognised as the voice of industry on all issues relevant to medical gowns and drapes and face masks
- Monitor standardisation activities and coordinate initiatives where appropriate.
- Develop and implement marketing strategies building on the benefits of single use products
- Identify and resolve any obstacles for trade
- Promote the industry and be sought out for positions and high quality information.
- Provide non-competitive information about the industry
- Provide dialogue opportunities and coordinate activities with relevant authorities, institutions and organisations

Who should attend?

Every EDANA member company with an interest in medical gowns and drapes or face masks (including suppliers of ingredients, semi-finished products or services) can appoint one or more representatives to participate in this Working Group.

Participation in a group is subject to the EDANA guidelines.

Benefits/deliverables

- The opportunity to raise concerns and launch initiatives with companies in your sector
- Influence on public affairs activities for product related issues
- Outreach to external stakeholders
- Updates on policy and legislative developments
- Position papers, reports, guidelines and scientific documents
