

# FILTREX™ 2025 Wraps Up in Vienna with Discussions on Filtration and Sustainability

1 April 2025

FILTREX™ 2025, EDANA's flagship event for the filtration industry, wrapped up last week after two dynamic days of discussions, technical advancements, and industry collaboration. This 10th edition brought together more than 100 professionals to explore the latest developments in air and liquid filtration, sustainability, and regulatory challenges.

**Vienna, 1st of April 2025** - FILTREX™ 2025, EDANA's flagship event for the filtration industry, wrapped up last week after two dynamic days of discussions, technical advancements, and industry collaboration. This 10th edition brought together more than 100 professionals to explore the latest developments in air and liquid filtration, sustainability, and regulatory challenges.

The General Manager of EDANA, Murat Dogru, shared his reflections on the success of the 10th edition of FILTREX™. He highlighted the significance of the event and its impact on the industry:

"Hosting the 10th edition of FILTREX™ in Vienna was an honour, and I was truly encouraged by the level of expertise and engagement in the room. What stood out to me was the
