

EAGS Preliminary Program

Date: November 22, 2024

Venue: Ramada Plaza By Wyndham Taian, Shandong Province

WELCOME SPEECH	
09:00-09:05	Sun Ruize, President, CNTAC
09:05-09:10	Marines Lagemaat, Scientific & Technical Affairs Director, EDANA
KEYNOTE SPEECH	
09:10-09:30	State and Trends of China Geosynthetics Industry Li Guimei, President, CNITA
09:30-09:50	The Big Picture - Geosynthetics and Environment: Sustainability Items and Climate Change Issues Daniele Cazzuffi, Chairman CEN TC 189, AGI-IGS President, IGS Past President
09:50-10:10	Green and Sustainable Development of Urban Construction in China China Municipal Engineering Association (TBC)
10:10-10:30	Coffee Break
10:30-10:50	Innovation and sustainability of geosynthetics Sam Allen, President, International Geosynthetics Society(IGS)
10:50-11:10	Properties and Applications of High-strength Coarse-denier Polypropylene Spunbonded Needle-punched Geotextiles Zhen Lei, General Manager, TianDingFeng Holding Co., Ltd.
11:10-11:25	Innovative Solutions for Intelligent Geogrid Applications Liang Xunmei, Chairman, Shandong Road New Materials Co., Ltd.
11:25-11:40	Engineering Innovation Application Cases of Geosynthetics Zhang Tao, General Manager, Feicheng Lianyi Plastic Co.
11:40-12:00	Development Trends of Whole Process Engineering Investigation Zhang Pengcheng, Director, Shanghai Investigation, Design & Research Institute Co. Ltd.
12:00-14:00	Buffet Lunch

14:00-14:20	Current Status and Prospects of Geosynthetics Standard Peter Atchison, Chairman, ISO Geosynthetics Committee
14:20-14:35	Applications of Geosynthetics in Railway Roadbed Jiang Fuqiang, Deputy Chief Engineer, China Railway Engineering Design and Consulting Group
14:35-14:50	Applications of Geosynthetics in Water Conservancy Engineering China Water Conservancy and Hydropower Investigation and Design Association (TBC)
14:50-15:10	Reliability Assessment for Geosynthetics Hong Kwan (Hogan) KIM, Vice President of Korean Geosynthetics Society
15:10-15:25	Performance of Geosynthetics for Filtration and Its Impact on the Environment Chen Qi, Chairman of Shandong Yibo Sunshine Engineering Materials Co.
15:25-15:45	Coffee Break
15:45-16:00	Innovative Application of Geosynthetics in Road Maintenance Feng Zhongchao, Chairman of Shandong Jingxin Innovative Materials Co.
16:00-16:15	M Water-stop Material and Its Structure Research Zheng Airong, CCCC Tianjin Harbor Engineering Research Institute Limited
16:15-16:30	Flexible Solution of Geogrid in Steep Slope Terrain Engineering Construction Speaker for Japan, TBC
16:30-16:45	Technology Innovation of Geosynthetics for Waste Landfill Application Liu Haowu, Deputy General Manager, Hongxiang New Geo-Material Co.,Ltd.
16:45-17:00	Application and Development Innovation of Geosynthetics in Marine Engineering Construction Zhang Peng, School of Civil Engineering, Qingdao University of Technology
17:00-17:20	Conclusions: Future Prospects for the Geosynthetics Industry Li Lingshen, Vice President, China National Textile and Apparel Council (CNTAC)
