

CALL FOR PAPERS

Deadline ⇒ 30 April 2025

sustainability & policy forum

NONWOVENS FOR SOCIETY

9 > 10 December 2025

Residence Palace / Brussels

EDANA is pleased to announce that the Sustainability Forum is expanding to include the policy dimension. The new Sustainability & Policy Forum will not only shine a spotlight on continuing industry trends in sustainability but also delve into the policies that shape how we do business in Europe and around the world. This expansion into the policy realm highlights an essential element in shaping effective sustainable solutions for the nonwovens industry of tomorrow.

Expect a rich programme, featuring sessions addressing stakeholders' expectations, circular economy topics, green claims, sustainability reporting and corporate due diligence.

It also includes a dedicated advocacy workshop to help you understand what matters at the EU-level for the nonwovens industry. Capping it all off, we will have a visit to the European Commission, which will include an exchange of views about the relevant topics facing our industry today.

We welcome presentations on all relevant sustainability topics for the nonwovens industry:

- Textile waste and valuable nonwovens
- Sustainability reporting (CSRD)
- Corporate sustainability (CSDDD)
- Circularity in durable nonwoven applications
